reference: main settings
Radio
carrier 7 GHz
carrier 15 GHz
beam isolation $\chi = 0.1$
no beam isolation, $\chi = 1$
no in-street obstacles
half of shadowing tied to place
no shadowing tied to place
time-varying part 3 dB
L1 sample error 2 dB
Protocol
preparation 20 ms
preparation 100 ms
T310 = 0.5 s
T310 = 2 s
re-establishment 0.3 s
Users
vehicles at 30 m/s
mixed population
30 users
120 users
half of the cells hotspots
Input to the memory
position error 5 m
position error 15 m
heading error 0.5 rad
Run length
runs three times as long
